Refund Policy – AugustPlus LLC

Effective Date: November 24, 2026
This version replaces the version effective April 17, 2025.

This Refund Policy applies to the individual training Course (USD 1,500) described in the Offer Agreement. Refunds for other services follow the terms of the specific order or a separate agreement.

1. How the Refund Is Calculated

If the Course is ended early, the refund is:

payments received – USD 100 × number of individual sessions actually held.

- If no sessions have been held, all payments received are refunded.
- Example: USD 1,500 paid, one session held — refund USD 1,400.
- Only sessions actually held are counted. There are no fees for rescheduling.
- The days that have passed do not by themselves reduce the refund.
- The refund cannot be negative, and the User does not pay anything extra.
- With installments, only payments actually received are taken into account.

2. After Termination

The training ends and access to the chat with the expert is closed from the date of termination.

3. How to Request a Refund

3.1. Write to support@amz-school.com and include your refund payment details. Giving a reason is optional.

3.2. We review the request within 10 business days and send you the calculation.

3.3. The refund is paid within 30 calendar days after we receive all necessary details, by the method and in the currency of the original payment, or by another agreed method.

4. Mandatory Rights

This Policy does not limit mandatory consumer rights provided by applicable law.
